## Common Sense Talk.

Last summer everything indicated our having large crops in the country and matters looked unusually cheerful towards a renewal of good times and pleaty of noney to enable the merchants doing a large Fall trade We consequently, bought largely, when prices were at the very lowest known for years, to surply the wants of our customers with cheap goods. As everyone knows, times have give contrary to our expectations, and we have still a heavy stock to dispose of. To enable us to do this we shall, for the balance of the season, offer all Wirter Goods at such low prices as will surprise even the lowest cash buyers; but the fact is we cannot afford to carryover what we have on hand and mast sell in w. So, call on us when you are in Belleville and inspect our cheap lines, and satisfy yourself that we mean what we here state.

## Common Sense Talk.

Last summer everything indicated our having large crops in the country and matters looked unusually cheerful cowerds a renewal of good times and plenty of money to enable the merchants doing a large Fail trade. We, consequently, when prices were at the very lowest known, bought largely, when prices were at the very lowest known for years, to supply the wants of our customers with cheap goods. As everyone knows, times have gome contrary to our expectations, and we have still a heavy stock to dispose of. To enable us to do this we shall, for the balance of the cason, offer all. Writer (foods at such low prices as will surprise even the lowest cash buyers; but the fact is we cannot afford to carry over what we have on hand and must sell now. So, call on us whon you are in Belloville and inspect our cheap lines, and satisfy yourself that we mean what we here state.
